Today – A weak front northwest of Des Moines will be the focus for showers/T-storms today, however activity will struggle to develop closer to the golf course. That means much of the day will remain dry with only 20-30% shower/T-storm chances before 10am and after 4pm. Southerly winds can be expected throughout the day with gusts approaching 20 mph at times. Forecast rainfall: Less than 0.15”.

Winds (mph)	S/SE 5-10	SW → NW 6-12 G15	S 10-14 G24	S/SW 8-12 G18

Extended Forecast – A weak frontal boundary will move towards Des Moines and then dissipate over the area on Saturday. A low threat (35% chance) for showers/T-storms will exist tonight. A dry forecast will be favored on Saturday, however rain chances may have to be bumped up slightly depending on the evolution of the front. Low (30%) shower/T-storm chances will be maintained in the Sunday forecast to cover the potential for a morning shower/T-storm complex. Breezy conditions are also possible on Sunday with gusts over 20 mph.
